

Dear Colleagues,

Are you interested in a career in clinical research?

Would you like to come to the **Edinburgh Stroke Winter School**? The aim of the course is to give a potential researcher the opportunity to develop an idea into a deliverable project over three days. We will cover study feasibility, management, regulation, presentation, writing, imaging, trials, cohorts and genetics studies relevant to stroke and cerebrovascular disease, guided by excellent stroke researchers from around the UK and Europe.

If you want to be a researcher; you are a doctor interested in stroke; and you speak very good English, the course is for you.

You will be inspired, with a network of researchers at the same level, and an opportunity to meet with senior academics from Edinburgh and around the UK. Previous attendees have enjoyed the course very much: see their feedback here: <http://www.acnr.co.uk/2016/09/edinburgh-winter-stroke-school-course/>.

The course is in **Edinburgh 19-21<sup>st</sup> February 2018**.

Further information is available here: <http://www.ed.ac.uk/clinical-brain-sciences/postgraduate-training/edinburgh-stroke-winter-school>.

Up to 3 competitive awarded scholarships are provided by the Polish School of Medicine Memorial Fund for your stay in Edinburgh and course fees. For further information about the scholarship and details of how to apply, please contact Dr Maria Dlugolecka-Graham by e-mail ([maria.graham@ed.ac.uk](mailto:maria.graham@ed.ac.uk)) before January 5th 2018

Yours sincerely,

**Dr. William Whiteley BM BCh MA MSc PhD FRCP**  
Scottish Senior Clinical Fellow, CCBS, University of Edinburgh  
Honorary Consultant Neurologist, NHS Lothian  
Clinical Research Fellow, NDPH, University of Oxford
