

INFINITY: empowering people with Mild Cognitive Impairment

Study results

EIT Health project INFINITY supports the independent living of people with Mild Cognitive Impairments (MCI) while slowing down the progression of the disease, marketing an ICT solution.

Program:

- 🔊 Introduction to the INFINITY project (Rebeca García & Silvia de los Ríos - UPM)
- 🔊 Results of the INFINITY study (Maite Garolera & Marta Vancells - CST)
- 🔊 Lessons learnt and best practices (Vicente Traver - UPV)
- 🔊 Towards the market uptake (to be confirmed)
- 🔊 Q&A session

Online event 26th June 2020 11-12h CEST
